Peter Basaglia, the well-known cement worker and stone mason, has been making many improvements in this city the past few months in the shape of cement sidewalks and gutterways. The latest improvement is a basalt block gutterway extending in front of the Plaza on First-street East and Spain street several hundred feet in length. Mr. Basaglia is a a first-class mechanic and his services are always in demand in improving our streets and sidewalks.

WOMANS' CLUB BALL IS BIG SUCCESS

Was Held in Union Hall Monday Evening and Attracted a Large Crowd from all Over the Valley.

The grand ball given in Union Hall on Monday evening by the Sonoma Valley Womans' Club was a big success from start to finish. About seventy-five couple participated in the grand march, which took place sharp at 9.30. The leaders were Mr. and Mrs. Jack Kinsella, Mr. and Mrs. Wm. von Hacht, Dr. W. B. Hays, Mrs. P. McMullin, Mrs. C. Burlingame and Jack Gottenberg.

Union Hall was decorated in a most appropriate fashion with large streamers of flowers and greens, intermingled with many electric lights. The stage was a mass of beautiful potted plants and flowers, while across the entire front and back of it were strung numerous Japanese lanterns.

The music, too, by the Lynch-Knolle orchestra of four pieces, was all that could be desired and the most popular dance music of the day was rendered.

In the early part of the evening the gathering was afforded the pleasure of witnessing an exhibition of the Argentine and Parisian tangoes by the Misses Adele and Marjorie Livernash, who are unusually talented and graceful. They have

OLD RESIDENT COMMITS SUICIDE.

Jumps into Forty-Foot Well and Striking on the Jagged Rocks on its Side Caves in Back of Head

G. De Bernardi, for many years engaged in the stone mason business here, committed suicide last Monday afternoon by jumping into a forty-foot well at his home in the eastern suburbs of town. The deceased was last seen alive about 4 o'clock Monday afternoon and was acting in a very erratic manner, and it is presumed he leaped to his death shortly after that hour. He was missed Tuesday and a search revealed that he had unboarded the covering of the well on his premises and taking off his hat laid it down alongside the well and leaped to his death. The presence of the hat led to the belief that his remains would be found at its bottom and a grappling hook was improvised and attached to a rope and the bottom of the well dragged with the result that it caught on the suicide's clothing and he was hoisted to the surface. It was then discovered that the back of his head was caved in by coming in contact with the jagged rocks which lined the sides of the well in the forty-foot descent to its bottom. It is presumed the injury to the head killed him before he reached the bottom.

A LETTER FROM CHAS. SPINDLER.

Writes About Panama and the Panama Canal.

Mr. H. Granice:

Dear Sir: It may interest you and your readers to have some information on the South, which is none too abundant generally and for that reason I will endeavor to send you a few lines off and on.

The trip from New Orleans to Colon with one stop at Swan Island was pleasant, but owing to fog we landed eight hours late. Colon is at the northeastern entrance of the Panama Canal There is nothing of interest here but the magnificent Washington Hotel, owned and built by the U. S. directly on the sea, and the gardens are protected by a strong seawall and De Lessep's old house. The Isthmian Canal Commission is working on the breakwaters, of which the southern part is nearly completed and also on harbor facilities, which will be of less dimensions though than at Balboa.

The trip from Colon to Panama City, one and half hours along the canal and crossing Gatum lake, is quite interesting; the P. R. R. is mostly running close to the canal It will take months yet until the Culebra Cut is ready for shipping and the slides will be of constant danger until the tops of the hills are lowered. Another objectionable obstruction is the vegetable growth (water plants) in Gatum lake, which seemingly cannot be sufficiently cleared by dragging or dredging. Importing hippopotamusus is now under consideration.

An enormous area is flooded by the Gatum dam and the I. C. C. is building an electric plant to change the P. P. R. from steam to electricity, utlilizing the Chagres river waters.

Most of the work now in progress is done at Culebra and Balboa. The latter is the port on the southwest entrance. An immense dry dock, machine shop and repair works for ships, harbor facilities and docks are under construction and the big and long seawall or breakwaters from Balboa to the three islands of fortifications, are built of material from the dry dock excavation and by cutting down Aucan Hill. Aucan and Balboa are in the canal zones, Panama City as well as Colon are cities of the Republic of Panama. In reality they are in the 10 miles wide canal zone, but they were ceded to the Republic as the main source of income.

The City of Panama is about six narrow blocks wide on a high and dry peninsula and is protected from the sea by an old high and well preserved sea wall, constructed about 1680, after the Buccaneer Morgan had destroyed the old city of Panama (1650.) The ruins of the old city are viewed by a good many tourists and it is a pleasant trip in a big yellow sight-seeing auto over an almost perfect road. The railroad station in Panama City is new and roomy. There are hundreds of one and two-horse hacks and the fare from one to any other place is 10c gold American. However, the new Panama tramway lines have done this hack or "corhe" business some harm.

Panama hats are not made in Panama but in Ecuador and the price of them is higher here than in New York. There is always a nice cooling breeze across the Isthmus and the nights are comfortably cool.

The fertility of the soil is wonderful, but some say that in six years it will be completely exhausted, but in Costa Rica and Nicaragua it is claimed to be everlasting. The main fruits, wild and cultivated in small tracts, are cocoanuts and bananas. Of all their fruit, I preferred the Papaya Melon.

I had three days time in Panama and utilized them making a boat trip from Gatum to Gamboa on the canal, collecting some rare stones and agates from the Culebra cut, visited the dungeons under the seawall and walked over the seawall from end to end.

Worth mentioning also is the Hotel Tivoli located on the boarder line of Panama City in Aucan and built and managed by the I. C. C. The service in this hotel, as well as the big rooms, made a good impression upon me. There is one brewery in Panama and another one is now being built i. e. the "Cerveceria Tropica." In the canal zone all saloons are closed but Panama City has about 400 of them, cantinas and hotel bars.

American influence and money has done wonders and made out of that malaria, yellow fever and pest ridden country, a clean and healthy resort.

Though it is possible that crocodile hunting and similar sport may attract people and induce them to come to Panama, I doubt however that it will ever become a pleasure resort in spite of the new Coney Island now being built about three miles west of Panama City.

Sonoma, California, February 28, 1914.

The School Bond Election.

The attention of the voters of Sonoma school district is called to the bonding election to be held on Saturday, March 21st. On account of a slight discrepancy in the date of one of the posted notices it was considered advisable, in the judgment of the Board of Trustees, to postpone the election which had been set for February 21st. District Attorney Lea informed the Trustees that in his opinion the error would in no wise affect the legality of the election, yet in order that no possible question might arise as to the validity of the bonds it was decided to post new notices and readvertise, which is being done at no added expense to the district.

The voters of our district are keenly alive to the absolute necessity of providing better accommodations for the school children of the community. From the many inquiries regarding the election and the many expressions of regret that the former election was of necessity declared illegal, it is quite evident that our people WILL HAVE that new school house, and that on March 21st we will see even a greater manifestation of interest and there will be fully as great a majority in favor of the proposition as at the former election. Our schools are second to no other institution. The public school is the backbone of our nation.

We note Santa Rosa to the front with a $180,000 bonding proposition for new school buildings and Berkeley takes the lead in the State with $1,350,000 for her schools. Near home we find our neighboring town of El Verano calling for a bond election in the near future in order to improve and enlarge her school facilities.

The voters of our district are invited to visit our public school and directly acquaint themselves with the wretched condition of the old building, with its dark and dreary rooms and its generally dilapidated and unsightly appearance, and without a doubt every right-thinking and fair-minded person will support the bonds.

As the entire proposition was so thoroughly gone into previous to the first election it seems hardly necessary to go into the details again, but it might be said that with the bonds of $30,000 payable in thirty years, with interest at the rate of 5½ per cent., our taxes for school purposes will still be lower than in the majority of towns and cities in our county and throughout the State. For this amount we will get a first-class modern brick and concrete building that will serve our needs for many years to come. The plans are the same as presented by the trustees at the first election on December 19th.

Regarding registration, District Attorney Lea has stated that the register of 1913 holds good until April 1st, consequently electors may vote at the bonding election of March 21st on their old registration, or if not on the old register they may vote on their new registration provided they have registered before February 18th, as registration for any election closes thirty days before the election.

Keep in mind the date of election, March 21st. Go to the polls on that date and by your ballot again demonstrate that our valley is in line with progress and improvement.

Let us make it unanimous this time.

The Black Point Cut-Off and County Board of Supervisors.

At the March session of the Board of Supervisors they will be urged by the El Verano Development Association, the Sonoma Chamber of Commerce, the Embarcadero Improvement Club and in fact every civic organization in the Sonoma Valley to appropriate $50,000 out of the general fund of the county for its share of the $75,000 asked by the State Highway Commission toward the construction of the Black Point Cut-Off highway, the other $25,000 to be assumed by the taxpayers of the Sonoma Valley.

Surely they will not be denied, because the proposition is the greatest that has ever been advanced for the development of Marin, Napa and Sonoma counties, and the latter in particular.

The people down this way are unanimous for this great highway project which is not a local proposition by any means as it concerns every section of California north of San Francisco. In a recent editorial the S. F. Examiner, in favoring the project, under the caption of "These Three Counties Should Get Busy," says:

"The State Highway Commission estimates that it will cost $370,000 to construct the Black Point Cut-Off. Of this sum the commission will provide $125,000 from the State fund if the counties of Napa, Sonoma and Marin will provide the balance.

"The three counties should not hesitate a minute to close with the offer. The Black Point Cut-Off will pay them over and over for the investment. It would pay them if the cost were five times as great.

"Primarily this link is necessary to the completion of a scenic route, nearly two hundred miles long, which would at once become famous the world over. The stream of automobile travel along this highwhy would be full and steady. The three northorn counties are noted for their picturesque beauty. Once they are accessible over a fine highway they will be alive with visitors. And many who come to visit will return to stay.

"There are no more productive areas in the State than are the Napa and Sonoma valleys. Their products need only nearer and greater markets. San Francisco is such a market. The new State road will b the distance shortener.

"If the three counties provide their shares of the cost quickly this wonderful and charming scenic highway can be finished early next year—by midsummer at the least. We believe that the sight-seers and home-seekers to be attracted by such a route in the last half of 1915 will alone more than return the money the people of Napa and Sonoma and Marin are asked to provide. They should bestir themselves and waste no time.

"A day lost now in raising the money is a day of tourist travel and market hauling lost next year, and every day in 1915 means a little mint for our neighbors north of us, once this road work is done."

We he... likely one of our well-known yo... society men became infatuated with a dusky maiden of the forest and hop fields, the other day in Cloverdale. It was a case of love at first sight and he bought an engagement ring for 45 cents. Don't give it away but her name is "Pearl Feather." Whoop, big Injun.

Friend Easy Jim:

I have often heard it remarked that the life of a reporter is a hard one but I never realized the meaning of it until the other evening when I attended a meeting of the Five O'clock Tea Club. One of the members, Minnie Madden, arose and stated that "Easy Jim" was going to throw down Vineburg and cease writing for the Index-Tribune. She claimed that "Adeline," the El Verano correspondent, had said so and she (Minnie) wanted to know what your fair assistants thought about it. Ethel Eastlake said you were crazy, Fannie Ferndale swears she will never speak to you again and Viola Vineburg thinks you ought to go up in an air ship 3000 feet and fall out. She said that might knock some sense into you. Jessie Jay said that the club should present you with a case of eggs, the crop of 1912. Those "cowardly eggs" that Bill Helberg tells about, that hit a fellar and then run (and so does the fellar.) Easy, you had better sue "Adeline" for breach of promise or you'll never square yourself. Consult a good lawyer like Enrico Forni or Gus Rouquie and they will put you wise believe me. I don't think that "Adeline" likes you half as much as your friend,

"Carrie Carlton."

EL VERANO ITEMS.

Louis and Joe Kearney went to the metropolis Sunday.

Miss Mary McGill left for Berkeley on Wednesday's S. P. train.

A number of visitors came up last Sunday for a day's outing at the various resorts here.

Chas. Danieli has a large force assisting him in pruning the orchard on the Sonoma Vista Land Co. tract.

Do not forget the big dance at the El Verano Villa this Saturday evening under the auspices of Mr. and Mrs. Perkins.

The grand ball given by the El Verano Development Association Saturday night was both a social and financial success.

A number of friends tendered Mrs. Wm. Langer a surprise party Monday, the occasion being her birthday. All had a fine time.

Attorney Frank Sprague and friend Joe called on us the other day and exchanged a few funny sayings with the boys. Call again Frank.

Harry Baines, Dan Singleton, L. Larson and others, motored to the City of Roses the other day, greatly enjoying the balmy air and sunshine.

Harry Clement went to the city for a few days last week to view the Exposition grounds. He was mostly interested in the Agricultural building of Idaho, that being his home State.

It is reported that violaters of the fish laws are plying their sneaky work in this vicinity. While the honest sportsman lives up to the law the malefactor is out whipping the streams to his heart's content.

Geo. Block met with a painful accident last Monday. While unloading some lumber, he slipped and fell on a long nail, which penetrated his arm. For a time he was threatened with lockjaw, but at this writing the wound was rapidly healing.

R. K. Weaver, our popular mechanic and contractor, is busy getting things in shape at Oak Grove. Mr. and Mrs. Koerner deserve a great deal of credit for all the improving they have done at their famous German resort. "Unter den eichen Heinerich."

A tea party was held at the home of Mrs. James Baines on Tuesday. Those present were Mesdames Baines, Langer, Block, and Misses Lucy Block and Irene Baines. Selections on the piano were rendered by Miss Baines and all had a most enjoyable time.

There was a lot of excitement here a few days ago. While some parties were strolling up Fowler creek they discovered a spring bubbling out of the bank, which from all appearances resembled a flow of oil. After digging along its source it was found to be a lot of baling wire that had been buried by the debris from the creek causing the illusion.

Riverside Avenue, one of the most beautiful and picturesque driveways in Sonoma Valley, is being gradually swept away by the high waters of Sonoma creek. The avenue is lined on each side by rows of elm trees, which were planted the time of the El Verano boom 25 years ago. A large number of them have already been washed away.

Monday morning the railway crossing at El Verano almost claimed another life in the person of A. E. Warriner of Sonoma, when he drove his horse in front of the north-bound passenger train. Roy Chance happened to be on the opposite side of the track and called the man's attention to the approaching train, and he managed to just get by in time.

ROYAL BAKING POWDER

Is the Housewife's Greatest Help.

WHAT so tempting to the laggard appetite as a light, flaky, fruit short cake or a delicate hot biscuit?

Royal makes the perfect short cake, biscuit and muffin, and improves the flavor and healthfulness of all risen flour-foods.

It renders the biscuit, hot-bread and short cake more digestible and nutritious, at the same time making them more attractive and appetizing.

Royal Baking Powder is indispensable for the preparation all the year round of perfect foods.

The Auto Tax Law is Declared Valid.

In an opinion handed down by the State Supreme Court, last Tuesday, the motor vehicle Act was declared to be constitutional, and it is now incumbent upon every owner of an automobile to pay the tax or be subject to pay a fine or go to jail. This act is one of many passed by the last fool Legislature and to the mind of a layman is obviously double taxation, although the Supreme Court holds otherwise. From now on every machine must display red tags with white numbers, front and rear and the latter must be illuminated at night. The tax variers from $5 to $25 according to the horse power of the machine. Pending this decision the law has not been enforced by the local authorities but from now on better get busy and pay the tax or keep your machine off the streets and public highways.
